Sexy Dress Pattern

This Valentine's Day, we have something special for you --something sweet or something racy-- with a free sexy dress pattern and tutorial. This dress comes with a warning! Be careful. You may struggle to keep your lover's hands off you when wearing this..

This is an intermediate level project. It will take some time to make, but once it's done, you'll be happy to spend time in it! It is comfortable, but sexy and is a very flattering design. I have designed it on a bias and simplified the construction as much as possible. I have made it especially for the curvy girl in mind. The smallest size will accommodate a bust and hips between 43" and 45". I have not used fusible interfacing because I did not want any more support, and my fabric did not need it. You are welcome to use fusible interfacing if your fabric allows it.

If you have something sweet in mind, I recommend the use of a very soft cotton voile or silk chiffon. If racy is what you want, then try to find the same fabric I am using. It is a satin/silk, black crepe or lace. Other fabrics you can use: Satin, satin back crepe, Charmeuse Satin, silk damask. I'll give you a few good suggestions from Fabric.com below.

This pattern and tutorial are completely free to you. The design and pattern are entirely original and, as you can imagine, has taken some time to put together. I really hope that you enjoy it and that it adds some spice to your Valentine's Day!

You can read more about this pattern over at So Sew Easy HERE.

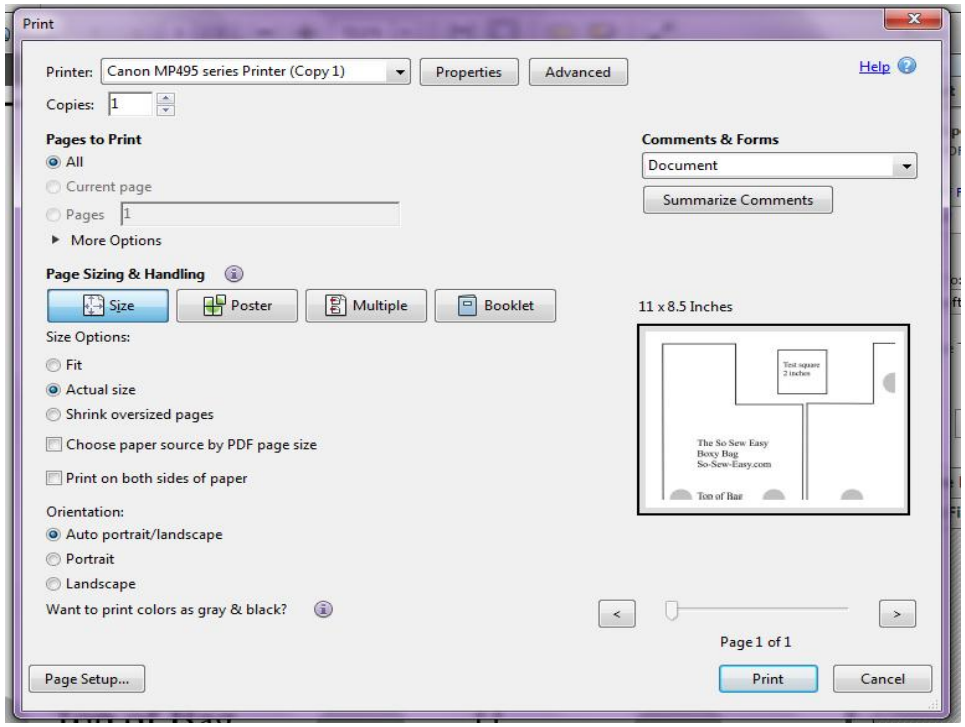
To print your PDF pattern



Your pattern pieces come at the end of these instructions. For accurate printing, please make sure you are using the latest version of Adobe Reader. You can download the latest version here if you need to.

Select File → Print and the print dialogue box opens. Under Page Sizing and Handling, select ACTUAL SIZE . Check the preview in the right hand side illustration. Select the page numbers you want to print. You can print the whole document, or just the pattern pieces.

On the edge of the top left page is a box you can use to test your printing. This box should measure 2 inches square. If yours is wildly different you will need to check your printer options to make sure the pages are not being resized.

Use the grey guides on the overlap of the sheets to match up the pattern pieces, folding under or cutting off any overlaps, tape together and cut out your pattern pieces.

Help printing and assembling your pattern
